

14th March 2011

IMPORTANT!! – THIS IS NOT A CIRCULAR

WinAccs/WinStock/WinPay v6.35 SP6

ATTENTION ALL WINPAY USERS. This is your 2010/11 tax year end release.

This Service Pack will be available in the week commencing 14th March 2011, for downloading from our website. You will be notified of its availability in the normal manner. Those customers who have advised us that they do not have internet access will find a CD enclosed. If you wish to receive a CD automatically in future, please contact our Support Team.

Service Pack 6 will provide you with all the processing requirements to complete the current tax year end, and will also include all the processing amendments for the 2011/12 tax year.

Online filing of year end records for the 2010/11 tax year. Except in unusual circumstances, **all employers** must now file their payroll year end records on-line. If you are unable to do so, the Compact Software payroll bureau service can do this on your behalf. Please contact a member of our Support Team for further details of this service, which can also include the production of P60 forms for your employees.

➤ **PLEASE Install this Service Pack at your earliest opportunity.**

WinAccs and WinStock users will also find a number of recent enhancements and fixes undertaken since the last Service Pack, full details of which may be found in our Upgrade Notes.

Please ring our Support Desk if you have any queries regarding the above.

WinAccs/WinStock/WinPay VERSION 7

***** NEW *****

We shall be making further announcements later this month regarding the imminent release of version 7. This new release is compatible with all currently supported Microsoft Operating Systems including Windows 7 32-bit and 64-bit. For WinAccs users, Version 7 also contains a brand-new transaction processing system, capable of providing a number of advanced features.

New service – Remote training

***** NEW *****

We shall also be announcing shortly a new service for providing remote training for users. As time and travel costs are increasing, and yet it is vitally important that users are trained in the correct use of our systems, we will be able to link your office to ours, and provide training on an hourly basis at a reasonable charge.

Yours sincerely

Ian Jackson
Director
